

MSE Announces The Completion Of European R.E.A.C.H. Preregistration

VAN NUYS, CA - Micro Solutions Enterprises (MSE), the industry leader for quality compatibles, completes preregistration of the new EU regulatory framework for Chemicals: REACH (Registration, Evaluation, Authorization and Restrictions of Chemicals).

The aim of REACH is to enhance protection of human health and environment. REACH establishes European-wide uniform legal standards. It replaces the former evaluation of existing substances and the notification of new chemical substances. It has implications for producers, importers, formulators, distributors and users of chemicals, as well as those producing and/or importing articles.

“As an environmentally conscious company, we completed our preregistration for REACH.” Said Yoel Wazana, President. “Along with our ISO 14000 certifications in Europe and in the United States, we continue to follow through with our commitment to environmental compliance. We are proud to be an environmental company.”

Micro Solutions Enterprises (MSE), an ISO 9001/ISO14001 certified company utilizing 24 patented and patent-pending technologies, manufactures a full line of high-quality compatible toner cartridges, MICR toner cartridges, inkjets and thermal transfer ribbons. MSE’s manufacturing capacity exceeds 300,000 toners and 500,000 inkjet cartridges per month. The company owns and operates 285,000 square feet in California and Pennsylvania as well as additional distribution facilities in Canada, the Netherlands, Brazil and Israel. MSE offers full solutions for outsourcing, private labeling, private packaging, and blind drop shipping. The company also offers award-winning sales training, marketing materials and additional value-added services.
